

DINUBA CALIFORNIA

Dedicated to Service

At every United States Cold Storage facility, customer satisfaction is our primary goal. Our Dinuba facilities are operated by highly experienced professionals who specialize in providing forced air pre-cooling and storage for all types of vegetables, tree fruit and grapes. In addition to our many other services we also perform grape gassing. Try us-you deserve the best! United States Cold Storage-Dinuba takes great pride in serving the farm community with cooler storage for the many agricultural items grown in the area.
